Sir:

AMENDMENT

In response to the Office Action mailed March 28, 2001, please amend the above-identified application as follows.

In the Claims:

Please rewrite claims 4 and 11 as follows:

10/11/01  
98

4. (Seven Times Amended) A digital camera for use with separate color printers each of which having different predetermined process color and printing process parameters, a camera interface, a processor, a program memory, and a marking apparatus under the control of the processor; said camera comprising:

an imager to capture images;

a non-volatile memory;

g/

a printer interface for both receiving process color and printing process parameters from the camera interface of a one of the printers in response to connection of the one of the printers to the camera, and for also transmitting processed images to the one of the printers, wherein the camera receives color
